

Biography

William A. "Allan" Rees, PhD

Dr. Rees is the Senior Director of Science Operations for Altria Client Services Regulatory Sciences and an advocate of tobacco harm reduction strategies and operations best practices which contribute high quality data to product submissions. He has over 20 years of experience in clinical trials operations in both tobacco and pharmaceutical development settings. As a member of the Tobacco Implementation Guide (TIG) project, Allan is working with the ALCS internal team and guiding workstreams of the TIG v1.0 standard in collaboration with CDISC.
